## PROFILE

Full Stack developer with a passion for learning and sharing what I've learned to others. I'd love to join a team that's as ambitious as I am, but also knows how to make work a fun and inviting place to be. I excel in groups and collaborating with others.

## EXPERIENCE

### SOFTWARE DEVELOPMENT STUDENT

CodeWorks

2022

- Built a number of Single Page Applications using Vue3, Javascript, C#, and HTML.
- Developed multiple API's in JavaScript and C# used in conjunction with mongoDB, Dotnet SQL, and Auth0.
- Learned best practices with cleaning up code and making sure it is legible and readable for anyone who might need to look at it.

### WAREHOUSE DRIVER

Platt Electric

2019-2022

- Processed payments and created accounts for my employer using an IBM A/S400 operating system.
- Picked, packed, and loaded various electrical supplies by hand, forklift, and handtruck.
- Helped maintain warehouse upkeep and cleanliness.
